TOMATO SUPPORT.

It is made of galvanized wire that will not rust or rot out. It is easily set, and the legs being double, the greater the pressure the firmer the support. It takes up no room in the winter, as it may simply be hung on a peg till wanted again next year. It is the simplest, strongest, most durable, most easily operated and cheapest support we have seen. Per dozen, \$1.25; per gross, \$12.00.

GLADIOLUS BULB.

BULBS FOR SPRING PLANTING.

The Celebrated New Gladioli, "Ingleside Hybrids."

These wonderful hybrids are a cross between Nancianus, Gandavensis and President Carnot, and are undoubtedly the finest Gladioli ever grown. The blooms are of immense size, larger than any yet produced, while the colorings and markings are exceedingly rich and beautiful. They range from the purest white through delicate lavender and pink to deep crimson and scarlet. They are hardy, strong growers, and produce their magnificent blossoms on branching flower-spikes, of which there are five or six to each plant. In size and beauty they eclipse all Gladioli hitherto grown. \$2 per dozen, \$14 per 100.
